

Application for job Junior Software Developer.

Dear Sir / Madam Manager,

My name is Muhammad Haris Imran Bin Saifol Bakhrin and I would like to apply with enthusiasm for the Junior Software Developer role at Inscale Asia Sdn Bhd. As well as being a valuable addition to your team and company, I am certain this would be an exceptional opportunity for me to grow both professionally and personally.

On top of my experience, I am holder of a Bachelor's Degree in information technology from Universiti Tun Hussein Onn Malaysia. On top of that, I served as a President of Information Technology Club during 2 semester during my third year of degree. For the last of two years, I have interned as a technician computer and printer at Asyraf Service Enterprise. This tremendous experience has allowed me to acquire multiple important abilities which you described in the job advertisement which is quick problem solving and excellent teamwork. I also have excellent communication skills with the ability to work directly with clients to provide outstanding customer service.

In addition, I am fluent in Bahasa Melayu and English. On the tech side, I am skilled in using Microsoft Office, Photoshop, Visual Studio, Android Studio and Bootstraps. Besides, I also have interest in SQL, C# and OOP and looking forward for training on those areas such as the one offered by your company. I have the skills and training needed to make improvements that will enhance functionality.

Thank you for your time and consideration. Needless to say, sitting down with Inscale Asia Sdn Bhd representative to discuss the Junior Software Developer position in greater detail would be appreciated. I look forward to come in for an interview regarding my application to show you why I am perfect for this job.

Yours faithfully,

Haris Imran
